

MULTI SERIES DINING TABLES

Multi dining table - is space consuming, with its ability to expand to a length of 539 cm and accommodates up to 20 seats. Multi is both manageable and elegant considering the size. The extra metal legs, which gives the table a beautiful design detail, make the table very stable. The tabletop slide easy apart and the extra leaves are accessible underneath the tabletop. Space for 6 extension leaves - Storage for all of them under the tabletop.

No 758215 Main table

No 758054 3 x extension leaves 54 cm

Dining table with split in the middle - possibility for 6 extension leaves. All extension leaves can be stored in the table. 8-22 seats

L 215/539 W 102 H 75 cm.

MULTI SERIES

Multi dining table gives place for a lot of guests, with its ability to expand to a length of 539 cm and accommodates up to 20 seats. When extending the table the legs splits into two so that the inner leg section remains in its centre position giving a 100% stable table even when extended with 6 extra leaves.

Available in light oak as well as a selection of laminates and Fenix in a wide choice of colours and even stone or marble look - please see below.

QUALITY FURNITURE SINCE 1968

PBJ Designhouse was founded in 1968 by Per Buhl Jørgensen. Since 1996 the proud design and craftsmanship tradition has been carried on by Morten Svendsen, and the company has invested in larger production facilities to follow the strong demand.

DANISH DESIGN

PBJ Designhouse has a tradition of bringing together furniture architects and certified cabinet makers since the start.

This has turned the company into an exponent of Denmark's proud traditions in furniture – when creativity and quality unite, the result reaches new heights.

FURNITURE WITH A CONSCIENCE

All wood used at PBJ Designhouse comes from state approved plantations, where the logs are individually selected and gently harvested.

We often produce furniture with veneer. The reason for this is twofold. It reduces the use of solid timber, thereby conserving natural resources. Secondly, the MDF that the veneer cover is made with recycled wood which is better for the environment whilst still producing a strong and high-quality surface.

All of our timber and veneer are carefully hand sorted so that the grain patterns and color variations are as natural as possible.
